

Rx Drug Abuse Prevention Collaborative Members,  
The Rx Drug Abuse & Heroin Summit is Returning to Atlanta. The largest, most influential annual event addressing the opioid and addiction crisis will take place at the Georgia World Congress Center April 18-21, 2022.

The current state of the opioid and addiction crisis is grim: overdoses have skyrocketed, and we are all affected by this harsh reality. In a time when more lives are being lost than ever before, we mustn't lose sight of our most important resource – **hope**. Rx Summit is where solutions are formulated, and change begins.

This year's carefully crafted agenda features 90 breakout sessions across 9 educational tracks. Our community of stakeholders "from federal to family" will gather to create lasting, impactful solutions and cultivate change. This is *the* annual gathering to discuss what's working in prevention, treatment, and recovery. Will you be a part of it?

Join us for our most important year yet. To view the full agenda and reserve your spot in Atlanta, visit <https://rx-summit.com/>. Discounted Advanced Rates are available now through February 4.

For details on exhibiting and sponsoring, visit <https://www.rx-summit.com/download-2022-prospectus>.

Thank you,  
John
